SOPHISTICATED & STYLISH

“For a modern bridal look that makes the eyes sparkle, contrast the whites of the eyes with a deep smoky make-up. This makes the natural eye colour radiant. Keep the rest of the make-up minimal. Sweep a dark long-lasting pencil through the roots of the top and lower lashes and diffuse the line to achieve a smouldering effect with your choice of dark eyeshadow. Choose the darkest waterproof mascara and layer for voluminous dark lashes. Keep lips minimal with a sweep of gloss or a gentle colour stain patted in with a finger.”

BEAUTIFUL BOLD

“Red lips are a timeless look and can be a very elegant statement for autumn brides. There is a shade of red for every skin tone, so take your time finding the perfect red for you. To make your lipstick kiss-proof, opt for long-lasting lip colour or line and fill your lips with a waterproof lip pencil before applying the lipstick itself.”

NATURAL LOVE

“A monochrome make-up colour scheme looks modern, super-cool and is relatively easy to achieve. Just choose your favourite colour and apply it to lids, cheeks and lips. Play around with slight variations of the chosen colour. For example, a pop of brighter pink on the lips with a calmer pink on the lids and cheeks works to create a harmonious colour scheme throughout.”
