

One Early Decision, Two Degrees

Our earliest applicants are the ones with the most passion, dedication, and drive. When you show you're committed to coming to Hult—we show our commitment to you and your education.

What's Early Decision?

Early Decision (also known as ED) is for students who are interested in applying to Hult and consider it their number one choice. It demonstrates confidence, ambition, seriousness, and enthusiasm from the start. And in return for your early dedication to Hult, we'll reward you.

Sounds cool, what's in it for me?

If you apply to Hult through Early Decision and confirm your place, you'll benefit from:

- Priority admissions consideration
- Earlier access to scholarships and financial aid
- Peace of mind knowing your undergraduate place is secured
- Plenty of time to arrange any visas and accommodation for this new chapter of your life
- Access to a Hult masters degree at no additional cost*

How does getting a Hult masters at no additional cost work?

As an Early Decision student, you can graduate with a triple-accredited bachelors and masters degree, but only pay for your bachelors. Students who qualify for the masters program upon successful completion of their undergraduate degree are eligible to earn one of the following programs. Which would you choose?

- Masters in International Marketing
- Masters in Finance
- Masters in Business Analytics

What do I need to do, by when?

Early Decision application deadline **December 15**
Confirmation deadline **February 15**

Once you've confirmed, Early Decision is a binding agreement; meaning you're committed to attending Hult and withdrawing all applications from other institutions.
